PROFESSIONAL EXPERIENCE

Akıllı Phone

Istanbul/Esenyurt

Back-end Developer Intern

February 2024 – July 2024

- Gained comprehensive exposure to .NET technologies, mastering both fundamental and advanced concepts.
- Studied microservices-based projects to understand their advantages and implementation patterns.
- Developed teamwork and project-management skills: task delegation, time management, and effective communication.
- Built and deployed personal projects to apply theoretical knowledge and strengthen software-development competencies.

PROJECT EXPERIENCE

Car Repair Reservation System

December 2024 – Present

- Designing and implementing a full-featured booking and job-tracking system for auto repair shops.
- Using ASP.NET Core and Entity Framework Core to build a scalable architecture for efficient service operations.
- Developing RESTful APIs to allow customers to schedule appointments, track service status, and view service history online.
- Integrating security via JWT authentication with access and refresh tokens for robust identity management.

Hotel Management System

June 2024 – June 2024

- Developed a RESTful API for hotel booking and service management using ASP.NET Core.
- Leveraged RapidAPI's marketplace to integrate third-party data sources and enrich application functionality.
- Designed a relational database schema for reservations, guests, and room inventory with Entity Framework Core.
- Implemented JWT-based authentication and comprehensive error-handling to improve system stability.

Restaurant QR Menu System

April 2024 – May 2024

- Created a QR-code-driven digital menu solution with ASP.NET Core 6.0 and Web API for restaurants.
- Employed SignalR for real-time order updates, table-status monitoring, and push notifications.
- Architected a multilayered back-end with Entity Framework Core and MS SQL Server for robust data handling.
- Secured all endpoints with JWT authentication and token-refresh workflows.

Bookstore Management API

February 2024 – March 2024

- Built a comprehensive RESTful API with ASP.NET Core, focusing on best practices in HTTP, REST, and data modeling.
- Implemented advanced features: content negotiation, validation, async programming, action filters, pagination, filtering, sorting, search, data shaping, HATEOAS, and versioning.
- Secured the API with JWT authentication, implementing both access and refresh tokens.

EDUCATION

Acunmedya Akademi

C# Programming Boot Camp

Istanbul /Uzaktan

November 2024 – Present

Trakya University

Associate Degree in Computer Programming

GPA: 2.87

Edirne/Center Campus

September 2022 – January 2025

Avclar Firuzköy Anatolian High School

Istanbul /Avclar

September 2018 – June 2022

CERTIFICATIONS

- Cloud Computing with AWS
- ASP.NET Core API – RapidAPI and API Consumption
- ASP.NET Core API – SignalR
- ASP.NET Core Web API
- Foundational C# with Microsoft
- Web Development with HTML5
- Introduction to Operating Systems
- Entrepreneurship (Basic and Advanced)
- Version Control with Git & GitHub

SKILLS

- **Languages & Frameworks:** C#, .NET Core, ASP.NET Core MVC/Web API, Entity Framework Core, ADO.NET, C, Visual Basic, PHP, MySQL, HTML5, CSS3, JavaScript
- **Architectures & Tools:** RESTful APIs, Microservices, Linux, AWS, Swagger, Postman, Design Patterns, SOLID Principles, OOP, Git
- **Database:** MSSQL Server, MySQL, MongoDB
- **Languages:** English (Listening B1, Reading B1, Writing B1, Speaking A2), Turkish (Native)
